Subject: Received call from Ohio resident in Washington Cty-- no longer using private well and connected to Little Hocking PWS

Hi Andrew,

I just received a call from [REDACTED] **Ex. 6 Personal Privacy (PP)** He was on the list of 31 residents in OH/WV where Chemours found PFOA sample results within the 0.07 to 0.4 ug/L range. [REDACTED] **Ex. 6 Personal Privacy (PP)** said that he no longer uses a private well for his water supply and was connected to the Little Hocking PWS last year. I am cc'ing Josh Lane from the Washington County Health Department as an FYI.

Please let me know if you have any questions.

Best wishes,
Heather
